INTERNATIONAL PARTNERSHIP FOR IMPROVING THE QUALITY OF TEACHING IN VOCATIONAL SCHOOLS

Vilnius Technology School of Business and Agriculture is taking part in an international project entitled "International partnership to improve the quality of teaching in vocational schools". This project is co-financed by the European Union.

Duration of the project covers the period from 1 September 2014 until 31 August, 2017.

The project partners are three vocational schools from Poland, Latvia, Lithuania and Polish Company

" Perfect Project".

Leader Partnership: Schools of Economics and School No. 6 in Lomza

Project partners: partner from Latvia is a professional school of Daugavpils (Daugavpils Tirdzniecības Profesional vidusskola), partner from Lithuania is Vilnius Technology School of Business and Agriculture and a partner from Poland "Perfect project" limited liability company.

The aim of the project is to modernize the educational system of the project partners, till August 31, 2017, through the preparation, testing and promotion of innovative methods and techniques of learning and teaching in vocational education using the innovative, strategic approach in the form of the following system: ranging from modern tool to assess the skills and qualifications, by creating on the basis of innovative methods

of techniques of teaching and learning using multimedia technology , ICT, and developed materials for teaching vocational subjects, including foreign language training, through the creation of innovative training programs.

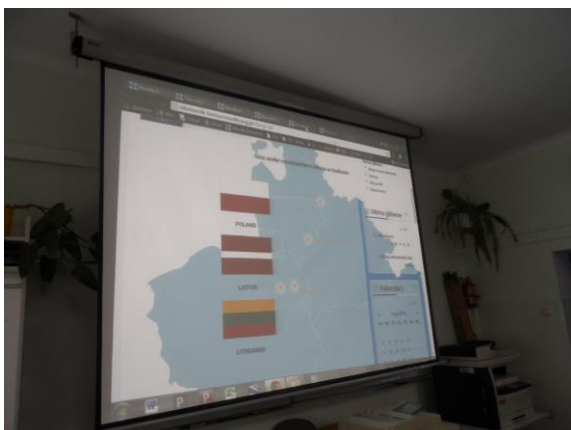

The first action was to prepare an innovative tool to assess the skills and professional competence created using online tools, mobile technologies cross-sectoral and creative approaches.

Institution in charge of this activity has been Economic Schools and School No. 6 in Lomza. The work included the period of 6 months from December 2014 till May 2015.

The next step was to prepare the innovative teaching methods in vocational school, created with the support of innovative multimedia technologies and ICT which were focused on learning, using mobile technology (d-learning and m-learning).

The directing institution from May to October 2015 was a partner from Latvia - Vocational school of Daugavpils (Daugavpils Tirdzniecibas profesional vidusskola).

Further action is the preparation of innovative teaching materials of general proficiency, particular those related to entrepreneurship, ICT, multilingualism with multimedia elements, module e-learning and other available training methods. The institution in charge of the action for the next half year till March 2016 will be partner from Lithuania, Vilnius Technology School of Business and Agriculture.

From October 2015 working group headed by the director of the school Valdas Kazlauskas has developed and presented at a meeting of partners in Latvia comprehensive introduction and the first topic of e-marketing. The next six developed topics plans to provide for assessment of the partners according to the schedule in December in Lomza.

Until the end of March Vilnius Technology School of Business and Agricultural (Vilniaus technologijų, verslo ir žemės ūkio mokykla), plans to develop 16 topics, a glossary of terms and a system of testing and evaluation.

The final action will be the implementation of the strategic system of four, relative to each other, complementary outcomes which will be led by the leader and all the partners.

This project is co-financed by the European Union
